Summary

Detail-oriented IT Engineering student with hands-on experience in Data Science, Machine Learning, Python development, and GUI applications. Skilled in prompt engineering, model evaluation, and automation.

Experience

NullClass Edtech — **Oct 2024 - Dec 2024**
Data Science Intern — Remote

- Worked on data cleaning, analysis, and ML model development.
- Built GUIs to simplify ML predictions.
- Created dashboards using Matplotlib and Seaborn.
- Used prompt engineering to generate insights efficiently.

Technohacks Edutech — **Feb 2023 - Apr 2023**
Python Developer Intern — Remote

- Developed ATM machine software in Python.
- Applied core Python concepts and best coding practices.

Dzine Consultant — **Jan 2024 - May 2024**
Office Assistant — Bhiwandi

- Managed services for 72+ clients. Prepared 60+ invoices with accuracy and attention to detail.

Education

SKN Sinhgad Institute — **Aug 2020 - June 2025**
Information Technology — Bachelors of Engineering B.E
7.08

NES Junior College — **July 2018 - Mar 2020**
HSC — Higher Secondary School
55

Dr. Omprakash Agarwal Eng High School — **June 2006 - Mar 2018**
SSC — Primary and High School
68

Projects

Sales Data Analysis & Visualization Dashboard — **07-04-2026**
Machine Learning
https://github.com/MoizAns/Sales-Data-Analysis---Visualization-Dashboard--Streamlit-App

- Built an interactive **Streamlit dashboard** for sales analysis with filters, KPIs, and visualizations.
- Developed a **RandomForestRegressor model** to predict sales using key features like Quantity, Discount, and Profit.

ML, pandas, matplotlib, streamlit

Credit Card Fraud Detection (Machine Learning)
http://bit.ly/3SWN6Uq

- Built ML model using Logistic Regression, Random Forest, Neural Networks.
- Analyzed transaction patterns. Detected Fraud transactions using patterns.

ML

Age & Gender Detector (Computer Vision + GUI)
http://bit.ly/44hD6vg

- Implemented prediction using CNNs & OpenCV.
- Built GUI for real-time prediction.

Tenserflow, OpenCV, ML, Data Science

Skills

Programming
●●●●○
Python (DSA&OOPS), JAVA, SQL

Data Science & ML
●●●●○
Data Cleaning, Analysis, ML Models, Evaluation

Prompt Engineering
●●●●○
Zero-shot/Few-shot prompting, Task-specific prompt design

Tools
●●●●○
Matplotlib, OpenCV, Seaborn, Tenserflow, Excel, MSoffice

Certifications

Python Programming (CDAC) — **19 Aug 2024**
SunBeam Institute

The Complete SQL Bootcamp: Go from Zero to Hero — **25 Dec 2025**
Udemy

Languages

English
●●●●○

Hindi
